

CHANGING CLOUDS

©Kath Bee 2008

Changing clouds, watch them disappear
And in the blink of an eye, watch them reappear
Pictures I can see, but you don't see the same as me
When we look at the clouds

CHORUS

Lying on our backs, nothing could be better
Talk and laugh while gazing up into the blue and white together

Changing clouds float across the sky
Encouraged by the wind they pass by
Changing clouds grow before your eyes
It's always a surprise when we look at the clouds

CHORUS

INSTRUMENTAL VERSE/CHORUS

Changing clouds what starts as a face
Turns into cars or horses in a race
Changing clouds a very peaceful way
For you and I to spend some time today

CHORUS
