CHORUS

I've got a dinosaur in my back yard
I've got a dinosaur in my back yard
I've blinked and blinked cos I thought they were extinct
But he's there as plain as day

He's got a large bony frill 'round his neck
He's got horns times three
He doesn't eat meat leaves and twigs are a treat
What's his name? **Triceratops**

CHORUS

He's got a long stretchy neck
So he can reach right up high
He's not a meat eater juicy plants are much sweeter
What's his name? **Diplodocus**

BRIDGE

It isn't my imagination
I'm not making it up
Look and you will see
That he's lookin' straight at me
Through my bedroom window

CHORUS

He's as long as two buses
Eight children can fit on his tail
As heavy as lead
Eats from morning 'til bed
What's his name? **Apatosaurus**

BRIDGE

CHORUS

He's got 60 sharp teeth if you please!
Gobbles other dinosaurs up with ease
The scariest beast! Last but not least
What's his name? **Tyrannosaurus Rex!**
