

FRIENDS

©Kath Bee 2006

CHORUS

Well you gotta have friends, friends, friends
You know you gotta have friends, friends, friends

Well I've got school friends and cool friends and
swim in the pool friends
My day friends and night friends and sometimes we fight
I've got friends in the next street and one with smelly feet
Best friends who I fit with, class friends who I sit with

BRIDGE

They come in all shapes and they all make mistakes
We forgive and forget
There are friends I haven't met, yet
So if I see someone sitting there on their own, I'll go and say "Hello"
'cos everybody needs.....

CHORUS

Well I've got mad friends and sad friends and
sometimes we're bad friends
My sport friends and art friends and sometimes we fart!
I've got friends with fuzzy hair and one in a wheelchair
And some who are funny and one who likes honey
