

Magic In Me

©Kath Bee 2018

I can sail the ocean wide

Ride the waves of the ever changing tide

Everything I need comes from deep inside

I've got the magic in me, me, me

I can cross over desert sand

Leap out, trust in where I land

If I need help then I'll take your hand

I've got the magic in me, me, me

CHORUS

I've got the magic in me, me, me

I've got the magic in me, me, me

To be whoever I want to be

I've got the magic in me, me, me

Walk the length of the longest beach

Learn lessons that I can teach

I know nothing is out of my reach

I've got the magic in me, me, me

CHORUS

BRIDGE

Just rap along, There's nobody in the world that's quite like me

I'm individual, yeah, I'm really unique

I can be what I wanna be, I'm making history

Make new discoveries because this life's a mystery

I've got pride and passion and I've got big dreams

I've got determination, nobody can stop me

So take your sparkle, take your shine and hold it in the air

Now spin it round and let it go, that's magic everywhere

There's magic everywhere, and it starts right here

CHORUS

(Key change)

Step forward on my own two feet

Listen closely to people I meet

Feel the power, it can't be beat

I've got the magic in me, me, me

I'VE GOT THE MAGIC IN ME (I've got the magic) x4

Me, me, me (Key change)

CHORUS X 2

OUTRO

To be whoever I want to be

There's no one else I would rather be

Best version that I can be

Of magical me, me, me
