

I Can't See in Front of Me

©Kath Bee 2010

The sun's gone down
The stars are out
It's getting dark
And I can't see in front of me
I can't see in front of me

The moon is up
Although it's bright
It's not enough
To light the way in front of me
I can't see in front of me

CHORUS

Is there anything there, that's not there in the light of day?
Is there anything different about it at all? (I can't see in front of me)

The light's gone out
The room is dark
The curtain's pulled
And I can't see in front of me
I can't see in front of me

And what's that thing?
And what's that there?
And what's that shape?
I can't see it properly
I can't see in front of me

CHORUS

BRIDGE

Click on the torch

Turn on the light

Everything's the same but it's out of sight

Talk to myself saying

Everything will be alright

INSTRUMENTAL BREAK

REPEAT V1
