

## Christmas Holiday Time

©Kath Bee 2001

Comes in December each year without a doubt  
It's like the weekend, something to sing about  
Our work is over; it's time for chilling out  
It's Christmas holiday time

Goodbye to classrooms, goodbye to teachers too  
Hello to sunshine, goodbye to feeling blue  
Weeks of freedom from ringing bells all day  
Because it's Christmas holiday time

Making toast and taking it straight back to bed  
Reading magazines or books we've never read  
We're on holiday

We've read the whiteboard too many times this year  
The words "Be quiet" are ringing in our ears  
We've written stories, multiplication too  
And now it's Christmas holiday time

### BRIDGE

We could play cricket on my lawn  
We could play spotlight until dawn  
We could go on an expedition  
We could have a burping competition  
There's no end to what we could do

I could stay at yours or you could stay at mine  
In our sleeping bags giggling all the time

Or we might go away with our families  
Because it's Christmas holiday time

Swimming at the beach or playing at the park  
Watching movies staying up way after dark  
We're on holiday

And when it's over, we'll start it all again  
'cos we've had time to recharge our brain  
New class and teacher to keep us occupied  
Until next Christmas holiday time x3
